

NEW DENVER

Founded in 1892 by silver miners, New Denver is a great launch pad for outdoor activities like camping, hiking, fishing, biking, boating, and more. In addition to a seasonal visitor centre, you'll find a small hospital, liquor store, outdoor gear store, restaurants, cafes, lodging, gas station, and grocery store. It's also the site of the Silvery Slocan Museum, and the Nikkei Internment Memorial Centre and the Kohan Garden. Sandon ghost town is just a short drive from the village centre.
